

Insurance - Shopping Around

Your recreational vehicle needs to be insured, but choose your policy wisely. When shopping around for an insurer, consider the following:

- Is the policy premium competitive?
- Is the policy an Agreed Value or Market Value policy?
- Does the policy include the annexe and accessories such as air conditioners?
- Does the policy cover personal contents?
- Does the policy cover emergency accommodation and urgent repairs to the vehicle?
- Is flood cover included?
- Are there any charges that may be levied after repairs have been completed?
- Four insurance companies are members of the CCIA.
